About this version

This version is a replacement for our (latest) standard Marvels Cine Style v3.3. It uses a slightly altered curve, made to preserve luminance linearity in the 65-75% (skin tone) range. It further uses the internal Canon Neutral style instead of the Standard style, but this can be altered from the selected style settings menu in the camera.

This picture style has been tested by over 2000 DSLR film makers worldwide during it's beta stage and has been downloaded over 310,500 times between 2010 and 2015.

All reports, issues, comments and discussions on our blog were taken into consideration before the release of this final version.

Hall of Fame

We want to encourage users to tell us what they have achieved with the Marvels Cine picture profiles (old and new). Music videos, short movies, feature films, commercials - we love to hear about your projects shot with Marvels Cine!

The Marvels Cine picture style is (and will remain) free to use and distribute. A mention of our name is much appreciated (see below). Please visit <http://marvelsfilm.wordpress.com/marvels-cine-canon> to add your name and project to the hall of fame!
